

## Overview

“Co-pays”, “deductibles”, “allowed amounts” “premiums”, “out-of-network”, “preferred provider”, “covered benefits”, “balance billing”, “cost sharing”, “authorization”, “pre-certification”, “narrow networks”.....

Do you know what they all mean and how they all affect the care you receive? Many do not!

All those terms are health insurance company jargon that make understanding health care insurance and healthcare delivery confusing and inaccessible to the masses.

Do you have health insurance but find yourself covering most of the cost of your care before insurance kicks in?

Have you chosen a high deductible policy to keep monthly premiums manageable?

Did you forgo obtaining health insurance because of high cost or confusion?

At *Eylan Health* we provide quality, affordable, comprehensive care, all year long, for the price of your deductible.

Our Concierge Care *Service Packages* are available to anyone with or without insurance. Get care when you need it.

No need to hassle with co-pays, coverage limitations, networks, authorizations, etc.

Pay once and be done!

Whether you have a high deductible insurance plan, an HSA, or are a small business owner looking to obtain medical care at a reasonable cost, we are here to meet your needs.

Call us today to learn more.

### Directions:

The entrance to our parking lot is located across the street from the 7-Eleven just after you turn onto Bel-Red Rd from NE 24th St.

Alternatively, you can come along 156th NE heading to Bel-Red Rd and the parking lot entrance is on your right just before the intersection.

View from 156<sup>th</sup> NE Street

## Our Program

Health Insurance has been tied to employment for decades. Employers are afforded a healthy workforce and employees have a means of obtaining affordable health care for themselves and their families. Win-Win!

Today, companies that still provide health insurance are reducing costs by providing high deductible plans that force employees to pay more for their healthcare. Employees are now required to come up with \$3500 - \$5500 or more up front for healthcare before any insurance benefits kick in.

Since health insurance providers see medicine as a “for profit” business and healthcare delivery as a “commodity”, the costs of obtaining care will continue to rise, while the quality of the care provided falls.

Approving care and health related services to ensure the health of those they insure is secondary to profits.

If you are self employed with or without employees, a business professional, or someone with a high deductible insurance plan, having bare minimum medical care is not enough to keep you doing what you love or your business thriving.

At Eylan Health, we provide you with proactive, comprehensive care that is attentive to your needs and respectful of your wallet.

We thoroughly screen, test and proactively address and manage threats to your health and vitality.

Choose the level of care you desire, and let us help you manage and maintain your greatest asset—Your Health!

## About the Doctor

Dr. Andrea Marshall is a graduate of top tiered Michigan State University College of Osteopathic Medicine, with a background in bodywork and holistic care.

She is a fully licensed medical doctor who practices conventional medicine as well as Osteopathic Manipulative Medicine. Her rigorous training gives her the background to understand complicated medical conditions and successfully address and treat the fundamental cause of disease rather than just merely addressing symptoms.

The breadth and scope of her practice allows her to offer a comprehensive array of therapeutic options, including manipulation, to address your medical needs.

Having trained in both hospitals and community clinics, she is prepared to address both routine and complex medical conditions with the goal of keeping you at home.
